

ACCESSION SHEET: OPEN COLLECTION

For NCIMB use only

Accession number:

Date culture acceded:

PLEASE NOTE: NCIMB ONLY ACCEPTS ORGANISMS UP TO ACDP GROUP 2. Depositors of strains are requested to contact NCIMB before sending a strain. Depositors of hazard group 2 strains are reminded that the cultures must be packed according to international packaging regulations.

Part A Historical Information

Data Sheet to be completed for each strain deposited in NCIMB

1. Name of microorganism or biological agent (genus and species) or host (plasmid):
2. Isolators strain, plasmid or varietal designation (if known)
3. Other strain and/or collection numbers:
4. Is this a type/neotype strain? YES NO (Tick appropriate box)
If 'YES' please cite publication designating this strain as the type strain.
5. Reason for deposit. Tick box if at request of NCIMB
6. Depositor (name and address):
7. Isolated by:
8. Date and source of isolation (microorganism) or harvest (plant seed):
9. History since original isolation:
NCIMB ← Depositor ←
10. List special properties and applications, if any. If the characteristics of this strain have not been published, please give a complete characterisation if available, on a separate sheet and attach to this form.
11. References (original isolation, original description or other appropriate documentation).

ACCESSION SHEET: OPEN COLLECTION

12. Is Sequence data available ? YES NO
For type strains please attach or send via e mail 16S rDNA sequence data and/or provide EMBL citation (mandatory)

Part B Preservation and maintenance

13. Suggested method for growing the strain (medium, incubation temperature etc) and unique identifying characteristics if a plasmid (host/properties/genetic markers):
14. Method for long-term preservation
- (a) Freeze-drying:
- (b) Cryopreservation:[‡]
(specify recommended cryoprotectant(s))
- (c) Other (please specify):[‡]

Part C Health and Safety Information

15. Is this strain known to be or likely to be pathogenic for (a) man?
or (b) animals? (please specify)
or (c) plants? (please specify)
16. If relevant, to which *ACDP category does this organism belong:
- | | | | |
|----------------|--------------------------|----------------|--------------------------|
| Hazard Group 1 | <input type="checkbox"/> | Hazard Group 2 | <input type="checkbox"/> |
| Hazard Group 3 | <input type="checkbox"/> | Hazard Group 4 | <input type="checkbox"/> |
17. To be completed for GMOs only:
- **HSE classification: Class 1
- Class 2, 3 and 4 GMOs are **not** accepted by NCIMB.
For all GMOs please attach evidence of the risk assessment.

Part D Information relating to the Convention on Biological Diversity (CBD) (Please complete as far as possible)

18. †Country of origin (Note: Organisms cannot be accepted without this information):
19. Date of transfer from country of origin to recipient collection (for NCIMB use):
