

ACCESSION FORM: OPEN COLLECTION

NCIMB

PLEASE NOTE: NCIMB ONLY ACCEPTS ORGANISMS UP TO ACDP GROUP 2. Depositors of strains are requested to contact NCIMB before sending a strain. Depositors of hazard group 2 strains are reminded that the cultures must be packed according to international packaging regulations.

For NCIMB use only:		
Accession number:	
Date culture acceded:	
Package intact:	Yes	No
Labels Clear:	Yes	No
Obvious contamination:	Yes	No

Part A - General information Separate form to be completed for each strain deposited	
Name of microorganism or biological agent (genus and species) or host (plasmid):	
Isolator's strain, plasmid or varietal designation (if known):	
Is this a type/neotype strain? YES NO (Tick appropriate box) If 'YES' please cite publication designating this strain as the type strain:	
Reason for deposit:	
Depositor name:	
Depositor address:	
Isolated by:	
Date and source of isolation:	
History since original isolation:	
List special properties and applications, if any. If the characteristics of this strain have not been published, please give a complete characterisation, if available, on a separate sheet and attach to this form:	

NCIMB Limited

References (original isolation, original description or other appropriate documentation):	
Is sequence data available? YES NO For type strains please attach, or send via email, 16S rDNA sequence data and/or provide EMBL citation (mandatory)	

Part B - Preservation and maintenance	
Suggested method for growing the strain (medium, incubation temperature etc.) and unique identifying characteristics if a plasmid (host/properties/genetic markers):	
Method for long-term preservation:	
Freeze drying	
Cryopreservation (Specify recommended cryoprotectant(s)):	
Other (Please specify):	

Part C – Health and safety information	
Is this strain known to be or likely to be pathogenic for:	
Man	
Animals Please specify:	
Plants Please specify:	
If relevant, to which *ACDP category does this organism belong:	Hazard Group 1 Hazard Group 2
To be completed for genetically modified organisms (GMOs) only: <i>Class 2,3 and 4 GMOs are not accepted by NCIMB. For all GMOs please attach evidence of a risk assessment. Please reference QF70</i>	**HSE classification: Class 1

NCIMB Limited

Part D – Information relating to the Convention on Biological Diversity (CBD) (Deposit will not be accepted unless this section has been completed)																	
Country of origin (Note: organisms cannot be accepted without this information):																	
Date of transfer from country of origin to recipient collection (for NCIMB use):																	
Agreement (prior informed consent (PIC) with ***contracting parties):	<table border="0"> <tr> <td colspan="3">Sought</td> <td colspan="3">Agreed</td> <td colspan="2">Evidence Attached</td> </tr> <tr> <td>Yes</td> <td>No</td> <td>Date:</td> <td>Yes</td> <td>No</td> <td>Date:</td> <td>Yes</td> <td>No:</td> </tr> </table>	Sought			Agreed			Evidence Attached		Yes	No	Date:	Yes	No	Date:	Yes	No:
Sought			Agreed			Evidence Attached											
Yes	No	Date:	Yes	No	Date:	Yes	No:										
Name and address of the person or organisation who issued the PIC:																	
Details of any agreed benefit sharing or other form of agreement between originator and contracting parties relevant to the end use of this organism:																	
Contact/responsible person in donating institution:																	

For more information about what we do with your personal information please see our [privacy notice](#).

I understand that this material is for deposit in the NCIMB open public service collection and if accepted a charge will be made to clients for the preparation and dispatch of propagules resulting from this deposit. I further understand that NCIMB has no direct control over the end use or end user of this organism. I understand that NCIMB do not claim ownership of this genetic resource, but that users are bound by the terms and conditions of the NCIMB Material Transfer Agreement (MTA) QF203.

Date:

Signature of Depositor:

* ACDP = Advisory Committee on Dangerous pathogens, HMSO, London
 ** Health and Safety Executive (HSE) UK
 *** Contracting parties = governments who ratify the Convention

NCIMB Limited
