

Accurate, reliable results with convenient test-ready formats.

NCIMB has partnered with Microbiologics to offer an extensive range of microbiology controls that provide accurate, reliable results with convenient test-ready formats to save you time and money. Microbiologics products are made using accredited reference material and are compatible with a variety of instruments, kits and applications. Traceability to reference cultures ensures authenticity and all products offer easy and economical storage with no freezing required.

Why Microbiologics quality control products?

- Microbiologics have over 40 years' experience of developing and producing microbial controls
- Extensive range of simple and reliable qualitative and quantitative formats
- Independent external controls provide accurate, reliable results
- Convenient test-ready formats save you time and money
- Easy and economical storage, no freezing required
- Microbiologics' industry-leading system includes ISO 17034 certification.
